Link:

The Social Security Administration's "Family" page provides information about benefits available to family members based on an individual's earnings record. It covers various types of benefits, including spousal, ex-spousal, child, and survivor benefits. The page explains eligibility requirements, application processes, and the amount of benefits family members may receive. Additionally, it emphasizes the importance of understanding these benefits for financial planning and security. Overall, the page serves as a comprehensive resource for families navigating their Social Security options and entitlements.
