Low-Cost Virtual Medical Assessment

Medical and Insurance · https://community.womensmoneymatters.org/resources/low-cost-virtual-medical-assessment/

Dr,B.

They provide virtual health assessments for a $15 consultation fee. A medical provider reviews treatment and sends a prescription (if appropriate) to their local pharmacy, This may be ideal for folks that do not have insurance or have high copays. This is available Nationwide Info:

www.hidrb.com

Dr. B is a convenient and affordable way to get medical care, including prescription medications, from the comfort of home. We help expand access to care by offering consultations with licensed medical providers for less than the cost of the average doctor copay. We also allow you to choose the pharmacy where you’d like to fulfill any medications that may be prescribed.

Our process is hassle-free: after taking an online health assessment and providing relevant medical information, a licensed provider will review your information and, if medically appropriate, write a prescription and send it to your pharmacy of choice, which can be online or your usual location.

During working hours, medical providers typically review consultation requests in three hours or less. If a medication is prescribed as part of your treatment, you can expect to be able to pick it up from the pharmacy in 15-30 minutes, though in some cases it can take up to 2 hours.
